

IFC Green Bay Butkus has the genetic traits to perpetuate. He has everything we want in future beagles. Butkus is a beautiful black blanketed, true '13' hound, with a white collar. He has a set of strong, straight legs that are covered with ticks, giving him that tuff beagle look. He has good tight feet that are built to work day after day. Butkus has a deep chest that propels him through any snow conditions. He has long, well proportioned ears, a houndy head, with a perfect scissors bite. His voice is dominate in a pack, and exciting to listen to while hunting. When choosing a stud you should pay close attention to the studs parents and grandparents, as they have a tremendous impact on the traits your pup will possess. Butkus's sire, **IFC Green Bay Shooter**, accomplished everything you would want in a beagle and more. A few of Shooters accomplishments are: He was entered in five snow trials and won all five! Shooter also won four out of five trials in Canada. In the trial he did not win, he was awarded second place, Shooter is definitely a producer! Shooters sire, **IFC Melanson's Ranger Dan**, was Better Beagling's Magazines Top Producing Sire six 6 years in a row! Shooters dam, **FC Pine Acres Molley** was Better Beagling Magazines Top Producing Dam for live 5 years in a row! Butkus's dam, **FC Green Bay Wiley** was the fastest, cleanest hound we have ever seen run a rabbit. Wiley dominated trials from the snow and ice in the North to the heat and sand in the South. Wiley was Better Beagling Magazine's 13" female Hound of the Year in 2006. See Butkus's pedigree below. All six hounds in the first two generations are field champions, International Field Champions, and even a National Large Pack Champion! **FC Busca Bound Minca Marge** was the NMHA's Outstanding Hound in 2007. If you want producing power, Butkus has the power! He has the nose power of Shooter, the speed of Wiley, and the brains of both.
